Isle au Haut Electric Power Company Notice of Change in Delivery Rate and Public Hearing

When: Monday, March 10, 2025 at 4:00PM

Where: Isle au Haut Town Hall

The Isle au Haut Electric Power Company (Cooperative) intends to increase the current delivery rate of \$ 0.20/kWh to \$ 0.22/kWh effective April 1, 2025, as approved by the Board of Directors and members at the cooperative's annual meeting on August 22, 2024. The rate change will increase operating revenues by less than 15% and will help to cover budgeted operating costs and reserve requirements. A customer with a usage of 150 kWh per month will see an increase of approximately \$ 4.01 or 4.11 % on their monthly bill because of the increase. With only one customer class, the cooperative's rate change affects all members. The rate increase does not affect any other rates or charges. A public hearing will be held on March 10, 2025 to inform the membership of the rate change and to provide an opportunity for the members to be heard. A hearing notice with a description of the rate change is being mailed and emailed to members. A Zoom link will be provided as well via email for those not able to attend the hearing.
